DIGITAL CV · KNOLLING EDITION · 10.2026

GIULIO OCCHIPINTI

GO

TORINO / IT

Digital Innovation Consultant & Technical Partner for businesses of all sizes

PROFILE

I came to design by a route no manual describes: theatre, stages, photography, 5 countries and over 6 years of enterprise frontend (Intesa San Paolo, Aruba, Rai Pubblicità). Today I design interfaces with IBM and SkillUp certifications in UX/UI, work in short sprints and use AI inside the workflow. I can build what I design: that is the difference between a mockup and a product.
